Hello to all PS 58 Families!

We are excited to announce the winter classes! General registration will take place on Monday, December 5 beginning at 10:00am. The registration site is <http://www.ps58brooklyn.org/afterschool/registration/>. Classes begin on Monday, January 9, 2023 and end on Friday, March 31, a period of 10 to 11 classes, depending on the day of the week.

Carroll Kids is YOUR afterschool program. We are run by the PTA of PS 58, and we try to serve the many needs and wants of our families by providing high-quality enrichment classes and aftercare programming. We serve as many as three-quarters of the school population! Our program also provides recess counselors to help facilitate games and fun for all grades during the school day.

Carroll Kids enrichment classes run in three sessions: Fall, Winter & Spring. Spring class registration will open on Monday, March 13. We take a one-week break between sessions to allow for make-up classes. If you need childcare coverage during this interval, just let us know! We can arrange for “drop ins” with our aftercare program.

Students enrolled in enrichment classes are dismissed directly from their classrooms to Carroll Kids care (which is why it is critical that you update your students’ classroom information in Sawyer). All enrichment classes begin with a snack and then students transition to their various spaces throughout the school. Most classes run for 90 minutes ending at 4:10 pm. (Exceptions can be found in the following class descriptions.) We do have the option for enrichment class students to also enroll in Carroll Kids “LATE” aftercare sessions following their class. Details on this concurrent program are available at <http://www.ps58brooklyn.org/>; registration for aftercare will open on Monday, December 12.

As many of you know, some of our most popular classes fill up instantly after registration opens. But keep in mind that we are offering more than 60 classes this winter so everyone can find a class that fits his/her interests and schedule. Pricing is based on instructors’ fees and the number of days a class is offered in a session, and then marked up a small percentage to cover the costs of administration and small grant to the PTA. Many of our classes are taught by PS58 staff, and these classes are among our most popular and affordable. Other classes are taught by outside vendors and can be more expensive but allow us to offer a wide variety. Financial aid is available to eligible families. More details can be found on the [website](#).

Thank you!

Registration Tips

Afterschool Registration Website: <http://www.ps58brooklyn.org/afterschool/registration/>

1. We use Sawyer for our online registration software. Please make sure to go online in advance of enrichment class registration to create an account for your family. There is an annual per family fee of \$25 which must be paid prior to class registrations. This only needs to be purchased once per school year per family.
2. Check your login email and password in advance of registration. Take the time to reset your password if necessary.
3. Once registration opens, if you are interested in a class that you think might fill up quickly, put that class in your cart right away! When you add a class to your cart, your spot is held for up to 10 minutes. During that time, no one else can take that spot. But if you remove it from your cart or if you take more than 10 minutes to check out, the spot will re-open to anyone who adds it to their cart. Please be sure to purchase before your 10-minute window closes.
4. If a class is full, join the waitlist. Spots often open up. When that happens you will automatically be entered from the waiting list, but you're not obliged to take it. If you don't want the spot, just let us know, and we can refund you and move on to the next person on the list. If you don't get a spot this session, you will get priority to register for the next session, provided the class is offered again.
5. Please check to ensure that your child(ren)'s grade, classroom, medical info and pick up info are correct in your Sawyer account.

EzraGuitar:

Established in 2008, EzraGuitar is a guitar program designed to give kids the opportunity to study with some of the greatest classical guitarists of this generation, while using a method of learning designed especially for them. Our group classes are the core of the EzraGuitar method. These classes are built on the philosophy of Maoz Ezra, that music should be taught in the "language of children" and tailored to their natural abilities. By studying with this method and philosophy, it is our goal that children will connect to music-making in a natural and organic way. Through creative games and ensemble work, children will leave each lesson with a sense of accomplishment and musical knowledge that will remain with them as a foundation for any future musical endeavors.

EzraGuitar Kids Group Guitar Lessons (Grades K-5)

- We teach small group lessons for children in grades K- 5 (kids are grouped according to age & level, the course is cumulative.)
- Melody & Rhythm: through a mix of repertoire including, classical, folk, children's songs, rock, jazz, contemporary and original compositions, students will learn to play music, not only exercises.
- Reading music: Through our unique method children will learn to recognize, know and master the notes in a range of four octaves.
- Ensemble work: From the beginning children will be learning to play in an ensemble. This group work puts emphasis on listening with sensitivity and working together.
- Performance: At the end of each session, students will perform in a concert. Performance is a major part of studying music, it teaches the student about building self confidence and the joy of sharing music.

Teachers: Classes are taught by the world class faculty of EzraGuitar!
